Dec 18th 2017

Dear Dr Rose,

We at The Hills Food Frontier Inc (THFF) fully endorse the "Urban and Regional Food Declaration". THFF is a volunteer based incorporated association.

Our vision is that the Dandenong Ranges will be an inspirational, sustainable food destination in Australia and our mission is to inspire, mobilise and equip the Hills community to choose, grow, share and eat good food.

THFF are committed to the Hills region becoming known for good food eating, growing, learning and sharing. Our organisation is based on community development principles and we use a consultative, inclusive and grassroots approach.

THFF is supporting and developing food gardens and forests in the community, engaging schools, businesses, local community, residents, and accessing unused land and utilising creative spaces. THFF is promoting local good food cafes and restaurants, sharing what good food activities already exist, developing and facilitating gatherings /festivals, demonstrations, and including local businesses. THFF is developing and promoting educational sessions and resources focussed on growing and eating good food. THFF are using social media, website, flyers, noticeboards, word of mouth, networking, newsletters, presentations and local media to promote our messages.

Yours Sincerely

A handwritten signature in black ink, appearing to read 'D Rob', is placed over a light blue rectangular background.

Daniyela Rob

President THFF
